PROFESSIONAL SUMMARY

Final year Information Science student building full-stack and blockchain applications with React.js, Node.js, MongoDB, and Solidity, including a real-time messaging platform and a blockchain-based pharmaceutical supply chain system. Strong grounding in DSA, OOP, DBMS, and Computer Networks. Looking for a Software Engineering role where I can ship production-quality code and keep learning.

EDUCATION

BMS College of Engineering, Bengaluru Sep 2024 – Jul 2027
B.E. in Information Science and Engineering CGPA: 8.15/10

Government Polytechnic College, Lingasuguru Jul 2021 – Jun 2024
Diploma in Computer Science and Engineering CGPA: 8.76/10

PROJECTS

Real-Time Chat Application Jul 2025 – Sep 2025
React.js, Node.js, Express.js, Socket.IO, MongoDB, Mongoose, Tailwind CSS

- Built a full-stack real-time chat application using React.js, Node.js, Express.js, MongoDB, and Socket.IO, enabling instant one-to-one messaging and live user presence.
- Implemented real-time bidirectional communication using Socket.IO and persistent message storage with MongoDB and Mongoose, along with REST APIs for core application operations.
- Developed JWT-based user authentication and integrated Cloudinary for file sharing, with responsive UI, user status indicators, and theme customization using React and Tailwind CSS.

Blockchain-Assisted Pharmaceutical Supply Chain Management System Mar 2026 – Aug 2026
React.js, Solidity, Ethereum, Hardhat, Ethers.js, MetaMask

- Developed a blockchain-based pharmaceutical supply chain system for transparent batch tracking, ownership traceability, and role-based access control across supply-chain stakeholders.
- Implemented Solidity smart contracts for pharmaceutical batch registration, ownership transfers, lifecycle-status updates, expiry validation, and timestamped ownership history.
- Built a React.js frontend with Ethers.js and MetaMask integration, enabling authorized users to interact with blockchain functions for registering, tracking, and transferring pharmaceutical batches.

TECHNICAL SKILLS

Languages	C++, Python
Web Development	HTML, React.js, REST APIs
Databases	MongoDB, MySQL
Core CS	Data Structures and Algorithms, OOP, DBMS, CN, Operating Systems,
Cloud and DevOps	AWS, Docker
Tools and OS	GitHub, VS Code, Linux, Postman
Blockchain	Solidity, Ethereum, Hardhat, Smart Contracts

CERTIFICATIONS

- Machine Learning with Python – IBM
- AI Fundamentals: Foundations for Understanding AI – IBM SkillsBuild
- Full Stack Development – Board Infinity

EXTRACURRICULAR

- First Prize – Chess Competition, Government Polytechnic College, Lingasuguru
